PIRIOU delivers the 250th aluminium vessel A 55m FPSV for JANA MARINE SERVICES

FPSV 55w: 55 m Fast Pax Supply Vessel with waterjets

PIRIOU has just delivered a 55m FPSV to JANA MARINE SERVICES – a Saudi provider of best-in-class integrated Marine Services to Offshore Oil & Gas Industry.

Built by PIRIOU VIETNAM with a sea proven PIRIOU design, a dozen of vessels of this model were already delivered to various operators in the offshore oil industry. Several modifications were brought to this vessel in order to answer the shipowner specifications - especially increased speed- which was achieved by implementing a new propulsion system, making this vessel performance truly unique.

Delivery took place on 25th January 2021 at our Vietnamese shipyard, PIRIOU VIETNAM. The 'JANA 21' shall be exploited in the Arabian Gulf waters. This order from JANA MARINE SERVICES follows the delivery of two 41m FPSVs - 'JANA 17' and 'JANA 18'- in 2017.

PIRIOU group C.E.O. Vincent Faujour says: ***'We are glad that despite the complicated situation with Covid-19 pandemic lockdowns everywhere, we still managed to deliver this complex vessel in time. We take pride in being always up to our clients' expectations, even during such unprecedented times. Our PIRIOU VIETNAM team***

has proven yet again their capabilities and commitment, and hopefully this will translate into JANA Marine advantage. We value our relationship with JANA Marine. The loyalty of this customer confirms our ability to answer their operational requirements with the supply of our vessels and after sales services.

Through this contract fulfilment, PIRIOU has confirmed its position as the French leader for building high speed aluminium vessels. Thanks to versatile building capabilities and according to customer priorities and vessel requirements, PIRIOU offers the best compromise to choose either steel/aluminium or aluminium building'.

Jana Marine C.E.O. Mohammed AlSubaie said: *'Despite our concerns of delays because of the Covid-19 lockdowns, and international travel restrictions, we are appreciative of PIRIOU's efforts in meeting the committed deadline.*

This vessel has exceeded our expectations in speed and performance wise during sea trials, this reaffirms our trust in PIRIOU's capabilities and the high levels of quality and reliability of their products.

We are confident that the addition of this vessel to our fleet will further enhances our reputation as one of the best marine service providers in the region and beyond, and we look forward to the next opportunity to work together again in the future'.

FPSV 55w: a versatile and competitive vessel

The FPSV 55w is a very versatile aluminium vessel able to perform multiple functions in the oil offshore industry, including crew transfer and supply. Her sea proven design developed by PIRIOU INGENIERIE features a straight hull improving performances and crew comfort and offers a range of benefits:

- Improved speed for the same energy consumption fully loaded or light
- Much reduced consumption at economical speed
- Lounge equipped with seating for 60 personnel with maximum comfort
- Also offering great autonomy (139m³ fuel oil) and large cargo deck with 226 tons capacity. Her waterjet propulsion grants her enhanced manoeuvrability and improved safety thanks to the class 2 dynamic positioning system she is equipped with.

Main characteristics

Length:	55.1 m	Max. speed:	34 kn
Breadth:	10.0 m	Hull / superstructure:	aluminium
Depth at main deck:	4.4 m	Propulsion:	4 x 2000 kW - 4 waterjets
Max. draught:	2.28 m	Passenger capacity:	60 p.
Crew:	20 p.	Deck load:	226 t / 250 m ²

About PIRIOU

Involved in shipbuilding, repair, naval engineering and services since 1965, PIRIOU specializes in producing vessels up to 120 m with high added value through a combination of high-performance engineering and a global network of industrial sites in Europe, Africa and Asia. With over 500 ships built and delivered worldwide, PIRIOU provides bespoke solutions as well as a complete range of standardized or customized vessels that satisfy the requirements of international shipowners, whether they be private or public, civilian or military. www.piriou.com
